

# Paediatric Care Improvement Group (B11)

3 – 4 April 2019, Melbourne  
Meeting Code HRT1903

## Why participate?

- ❑ Compare performance in Paediatric care with other specialist services
- ❑ Track clinical and operational trends on key Paediatric indicators
- ❑ Share issues and innovations with your colleagues
- ❑ Develop practical action plans to improve your service over the next year

## Between and beyond hospital walls; integrating care for improved outcomes

This year's meeting will explore the integration of care, within and between hospitals and beyond the hospital walls to community providers. Please consider inviting your PHNs, referring and secondary hospitals and primary care providers to attend with you. Our aim is to provide a forum to discuss members success and challenges in caring for children and their families and leave inspired and with ideas and an action plan to improve patient care and outcomes.

The goals of the group are to:

- The group will examine different models of care to improve care for patients with chronic conditions
- Reduce unplanned avoidable readmissions
- Learn how the exemplar hospitals are working together with other hospitals and primary care providers to improve integration of care
- Share innovations in practices with an aim to improve experience and outcomes for children and their families.

## Benchmarking Reports

The suite of benchmarking reports includes the following paediatric specific reports (<17 years) produced 6 monthly:

Emergency Department

- Hospital KPIs
  - Top 10
  - Australian National Standards
  - Hospital Acquired Complications (HAC) New 2019
- Plus ... a customised report for the 2019 meeting, "Five years; where are we now" A review of the 5-years trends in the paediatric benchmarking reports from across the membership

# Paediatric Care Improvement Group

## What do you need to do?

- ❑ Designate a key liaison contact for questions and follow-up
- ❑ Regularly review updated reports for questions, comments or issues
- ❑ Report on progress made on improvement aims
- ❑ Organise a multi-disciplinary team to attend the annual workshops
- ❑ Identify improvement objectives for implementation based on innovative ideas learnt

## What does The Health Roundtable do?

- ❑ Produce tailored 'Paediatric only' reports six monthly extracting data from the inpatient episode collection, highlighting trends and differences in performance
- ❑ Invite expert speakers who can share innovative ideas on the key topic for the workshop
- ❑ Facilitate the annual meeting, and provide help identifying innovative practices for implementation
- ❑ Liaise with the Paediatric Steering Group to make sure The Health Roundtable data and meetings are relevant for your priorities

## Hospital Acquired Complications (HAC)

Health Roundtable Reports for Paediatric Group now include the Hospital Acquired Complications (HAC) report to provide members with detailed information regarding performance and potential impact of funding. This report will be age restricted <17 years.

## Comments from previous workshops:

- Great discussion
- Amazed at the contributions that other participating hospitals have put forward.
- Excellent initiatives/presentations openly shared and appreciated.
- Great resources on website, excellent networking opportunities

The Health Roundtable helps health executives learn how to achieve best practice in their organisations. We collect and analyse operational and clinical data of our member organisations to search for innovations in patient care. We promote collaboration and networking amongst health executives and staff through our roundtable meetings, workshops, and other activities.
